TECHNICAL SKILLS

Languages	Full Stack	Database & Authentication	AI / ML
• HTML / CSS • Java • JavaScript • Python	• React • React Native • Node.js • Express.js • REST APIs	• MongoDB • Mongoose • Firebase Firestore • JWT • bcrypt	• RAG • TF-IDF • scikit-learn • OpenAI API

PROJECTS

RecipeRemix | AI-Powered Recipe Generation System | Solo Project January - April 2026

Python, Streamlit, RAG, TF-IDF, scikit-learn, OpenAI API

- Built a retrieval-grounded AI app that generates personalized recipes from available ingredients, dietary restrictions, time limits, and cuisine preferences.
- Developed a RAG pipeline using TF-IDF and cosine similarity, integrating GPT-4o-mini to retrieve relevant recipes and generate structured recommendations.
- Implemented constraint validation and a Streamlit interface, integrating GPT-4o vision for fridge photo ingredient extraction and AI-generated recipe imagery.

YumMeal | Full-Stack Meal Planning | Group Project January - April 2026

React, Node.js, Express.js, MongoDB, Mongoose, REST APIs

- Built a full-stack meal-planning and recipe platform supporting recipe discovery, favourites, reviews, weekly meal planning, and role-based administration.
- Designed RESTful Express APIs and Mongoose schemas across 5+ application domains, including users, recipes, favourites, reviews, and meal plans.
- Implemented JWT-based authentication and bcrypt password hashing with protected user and administrator workflows across the frontend and backend.
- Integrated the Spoonacular API and developed reusable React components for recipe discovery, meal scheduling, reviews, notifications, and administrative workflows.

DormMate | Mobile Application | Group Project November - December 2025

React Native, Expo, Firebase, Firestore

- Developed a mobile dormitory issue-reporting application using React Native and Expo, supporting student and staff workflows.
- Implemented end-to-end application flows using React Navigation and Hooks, including issue reporting, status tracking, announcements, and role-based navigation.
- Improved navigation and usability through user feedback while coordinating team tasks and reviewing code.

EDUCATION

Simon Fraser University August 2023 - Present

- Bachelor of Science in Interactive Arts and Technology
